Rehoming Your Cat Through Here for Cats

We are currently operating a waiting list for cat intake due to the unprecedented number of cats needing support through our rehoming schemes. If the need to rehome your cat is urgent, we recommend that you also make enquiries with other registered rescue organisations.

We will also do our best to offer advice and guidance. Depending on the individual situation and your location there may be some things we can suggest which might help to alleviate the situation in the meantime.

We may be able to advertise your cat through our Direct Rehoming Scheme which means your cat will remain with you until such time as we are able to find them a suitable home. This is only possible in certain circumstances and we need to be in possession of your cat's full veterinary medical history for this option.

Pet Re-homer is also another online re-homing tool developed by Charity Buddy which may be able to support you to find a safe adoption option that you can manage yourself.

Fill in this form to give us your details and we will be in touch: <https://www.hereforcats.org/rehome>
